

REMARKS

Claims 1, 3-10, 12-16 and 23-36 are pending in this application. By this Amendment, claims 1, 6, 10, 15 and 16 are amended. No new matter has been added.

Applicant appreciates the courtesies extended by Examiner Verbitsky to Applicant's representative during the June 20, 2007 telephone interview. The telephone interview is summarized below and thus constitutes Applicant's record of the interview.

Claims 6 and 15 were objected to and have been amended responsive to the objection. It is respectfully requested that the objection be withdrawn.

The specification and drawings were objected to for various informalities. As discussed during the June 20, 2007 telephone interview, Applicant provides the following clarification in order to provide an example as to how the specification and drawings support the claim features noted in the Office Action. The following example is as follows:

the small tray unit 70b is an example of a first storage unit and first storage section and the large tray unit 70c is an example of a second storage unit and a second storage section;

the small tray 7b and the large tray 7c are examples of a first storage tray and a second storage tray, respectively,

the small tray guide 61b and the large tray guide 61c are examples of a first guide member and a second guide member, respectively,

the small guide frame 62b and the large guide frame 62c are examples of a first storage frame and a second storage frame, respectively,

the holes 54x, 54z are an example of a first attaching portion,

the holes 54x, 54y and 54z are an example of a second attaching portion, and

the screws 94x-94z are an example of an attaching member.

Although the examples are provided above, it should be obvious that other various modifications and structure can be used based on at least the additional disclosure in the specification.

As discussed above, the holes 54x, 54z are an example of a first attaching portion and the holes 54x, 54y and 54z are an example of a second attaching portion. Because holes 54x and 54z are a part of both the first and second attaching portions, the first attaching portion can be included in the second attaching portion, as recited in the independent claims.

It is respectfully requested that the objections be withdrawn.

Claims 1, 3-10, 12-16 and 23-36 were rejected under 35 U.S.C. §112, first and second paragraphs. As discussed above, Applicant provides an example as to how a first attaching portion is included in a second attaching portion. It is respectfully requested that the rejections be withdrawn.

In view of the foregoing, it is respectfully submitted that this application is in condition for allowance. Favorable reconsideration and prompt allowance are earnestly solicited.

Should the Examiner believe that anything further would be desirable in order to place this application in even better condition for allowance, the Examiner is invited to contact the undersigned at the telephone number set forth below.

Respectfully submitted,
